1. The application is redirecting to the lounge screen when clicking on the cancel button from the retry screen.
STR : Make trip request >> Wait for the retry screen >> Click the cancel button >> Check the screen.
2. In the trip request popup, the pick-up location showing as "Kochi, Kerala " if we chose current location as pick-up.
STR : Open the rider app >> Send a trip request which has the pickup location as the current location >> check the trip request popup in the driver app.
3. The pickup distance showing in the driver app is not correct. it always shows 1.5 km as pickup.
STR : Make a trip request >> check the pickup distance in the driver app.

This bug is not for testing purposes. It has been created for documentation purposes during the first restructuring and holds all the documents and screenshots of Tuksi Rider.

1. The application is redirecting to the lounge screen when clicking on the cancel button from the retry screen. : Fixed already
2. In the trip request popup, the pick-up location showing as "Kochi, Kerala " if we chose current location as pick-up. : This issue is due to calling geocode api from front end . It is corrected and updated in branch sprint-19-29_sreedevi_3478_re
3. The pickup distance showing in the driver app is not correct. it always shows 1.5 km as pickup. : not rider issue
