Target version:	1.0.3	Spent time:	0.00 hour
Milestone:	Sprint 21 Tukxi Ride 2024 July 01 to July 31	Branch name:	

Description

The trip requests that we send from a common access location are received by the driver one after another, Not as a batch.

STR

1. Set "Kilometer radius around the user to show online providers" as One in the general settings.
2. Send a trip request from outside the kilometer radius and set the pick-up location inside the kilometer radius.
3. Check the trip request popup available in the driver app.

ER

3. The ride request popup should be available to both drivers simultaneously.

AR

3. The trip request received by the driver outside the kilometer radius.
