This issue is not related to the restructuring. It already exists on the production app. Please create a separate bug for this call issue.

1. Delay for showing the pickup route in the rider app. (15 Seconds needs to draw the pickup route)

STR:- Make a trip >> Accept the trip >> Check the pickup route showing in the rider app.

2. The status showing as "EN ROUTE", when the trip is accepted by the driver. It needs to shows as "Arriving"

STR:- Make a trip >> Accept the trip >> Check the status showing in the rider app.
