pin point:

1,ER: when using the pin in map to point the location,it should display as selecting location in pick up

AR: Not as expected

2,ER: Once the pin is marked in the location, the same location should be viewed in driver

AR: In driver app it shows out the current location of the rider

3, Can't able to cancel the request for rider(even when the cancel button is selected)

4,while removing coupon, rider app crashes(a new bug is created)

Case 1: In confirm pickup screen, while moving the pin instead of your location it should show selecting location

Case 2: When the pin is located in a certain point in confirm pickup screen, and once the request is sent to the driver, in driver from should be the pinned location not the current location
