- Status changed from QA Ready to Resolved

#14 - 10/01/2024 05:52 AM - Anupama P

- Milestone deleted (Sprint 21 Tukxi Ride 2024 July 01 to July 31)

- Milestone set to Sprint 24 Tukxi Ride 2024 Oct 01 to Oct 31

#15 - 11/05/2024 05:05 AM - Anupama P

- Status changed from Resolved to QA Ready

- Target version changed from 1.0.4 to 1.0.6

#16 - 11/08/2024 12:22 AM - Firosha Fathima

- Status changed from QA Ready to Reopened

1, When the user logged in with one device,the same user logged in with the another device the previously logged device is not expiring(session out)
ER:when the user user logged in with the another device the previously logged device should session out
AR:Previously logged device is not getting expired.

2,In otp page, when we click on verify for the first time it will not redirected,only on the second click it navigates to the next page.
ER:It should navigate to the next page while clicking verify for the first time
AR:It is not navigated to the corresponding page.

#18 - 11/11/2024 06:38 AM - shaheel Navas

1, When the user logged in with one device,the same user logged in with the another device the previously logged device is not expiring(session out)
ER:when the user user logged in with the another device the previously logged device should session out
AR:Previously logged device is not getting expired.

2,In otp page, when we click on verify for the first time it will not redirected,only on the second click it navigates to the next page.
ER:It should navigate to the next page while clicking verify for the first time
AR:It is not navigated to the corresponding page. -Fixed

for Developer : change include 'assets/plugins/ckfinder/core/connector/php/vendor/autoload.php'; on common.php
