<b>Milestone:</b>	Sprint 24 Tukxi Ride 2024 Oct 01 to Oct 31	<b>Branch name:</b>	sprint-22_sreedevi_3291
<b>Description</b> Back to back: Send trip request only when driver is nearby the drop off point  1. Trip details are not showing once accept the trip. 2. The driver can't message the passenger on the quid trip. 3. Driver can't call the passenger on the quid trip. 4. The rider can't message the driver for the quid trip.			
<b>Impact Analysis</b> <b>UI Changes:</b> Addition of a new button to indicate the presence of a queued trip. Display of a popup on button click, containing options for "Chat", "Call", "Cancel Trip Request", and location details. The button needs to dynamically adjust its visibility based on whether a queue-trip is available. <b>Cancellation Handling:</b> If a queued trip is canceled, ensure that the trip is properly removed from the queue and the driver is notified. Update both the driver and passenger about the trip cancellation in real-time, adjusting the system to reflect this change.
