

## Tukxi Ride - Bug #3295

### Call receives to the previously logged driver app, when the rider calls between the trip.

08/26/2024 05:36 AM - Shalu T S

<b>Status:</b>	Closed	<b>Start date:</b>	09/26/2024
<b>Priority:</b>	High	<b>Due date:</b>	09/26/2024
<b>Assignee:</b>	Nithun C	<b>% Done:</b>	100%
<b>Category:</b>		<b>Estimated time:</b>	32.00 hours
<b>Target version:</b>	1.0.4	<b>Spent time:</b>	0.00 hour
<b>Milestone:</b>	Sprint 19 Tukxi Ride 2024 May 01 to May 31	<b>Branch name:</b>	sprint-19_nithun_3295

#### Description

Call receives to the previously logged driver app, when the rider calls between the trip.

STR

1. Login to the rider app and driver app.
2. Make a trip.
3. In enroute status logout the driver app and login to another device.
4. Make a call from rider to driver.
5. Check the driver logged devices(both).

ER.

5. The call only receives to the newly logged device.

AR

5. Call received to previously logged device also.

#### Impact Analysis

Check the following scenarios

1. A "Session is expired" popup should appear when the app is launched after being killed, if the same user is logged in on another device.
2. A "Session is expired" popup should appear when the app is launched after being minimized, if the same user is logged in on another device.
3. A "Session is expired" popup should appear while the app is in the foreground, if the same user is logged in on another device.
4. Location updates should function as expected.
5. Call services should work properly.
6. Notifications should be delivered correctly.

1. Call receives to the driver app, previously logged in by the driver. if he/she not respond to the session out message.  
step:- Login a driver and rider >> make a trip >> make the trip in en route status >> login the same driver in another device >> call the driver from rider app.
2. Call not shows in the newly logged in driver app.  
Step :- Login a driver and rider >> make a trip >> make the trip in en route status >> minimize the driver app >> login the same driver in another device >> call the driver from rider app.
3. Call interface not showing in the driver app, also the ring sound is in the driver when the call accepts by the rider.  
step: Login as a rider >> make a trip >> make the trip into en route status >> login the rider in another device >> call the rider from driver.

- *Status changed from QA Passed to Reopened*

1. Loading issue in the driver app, if we login the same user in another device and restart the app.

Step :- Login the driver in Asus >> Login the same driver in another device >> Kill driver app in Asus >> Open the driver app in Asus.
