- Status changed from QA In Progress to Reopened

Service Rider:- sendRiderLoginOTP restructuring using node **failed in falcon**

1,Without filling the otp click on verify it shows as 'Can't communicate with server.....' instead of error message **failed**

2,During the registration process using the "Don't have an account" option, after the rider completes registration and reaches the home screen, a blank popup appears with an 'ok' button. **failed**

#12 - 06/02/2025 05:18 AM - Anandhu P Kumar

- Status changed from Reopened to In Progress

The issue is calling api even if the otp is not entered. Need to add validation in the front-end.

#13 - 06/02/2025 05:19 AM - Anandhu P Kumar

- Status changed from In Progress to Resolved

#14 - 06/02/2025 05:25 AM - Anandhu P Kumar

The second scenario is also a front-end bug; if any error occurs, do not land on the home screen.
